On the whole today has the potential to be a positive and healing day. You may prefer to escape reality rather than face it. Remember that healing comes in many forms. Today the time is right to be kind and gentle to yourself and others. Do you feel the need to escape to a romantic island getaway? Right now you can listen to and act on your urge to dream, relax or escape even if it is limited to a luxurious bath or a trip to the local beach rather than a year's sabbatical to a tropical island. Romance is also in the air. You may be viewing your world through rose-coloured glasses so try not to make any big decisions or tackle any practical projects. As now is not the most practical time of your life you are better advised to relax, dream, plan and be creative. Today your love life is a little unsettled. The extent of the tension depends on other astrological influences. This could just be a temporary glitch in an otherwise loving scenario or something a little more serious. Try to relax and not to obsess. If you show restraint then you are likely to reap the rewards of better understanding for your loved one. Now is a time a patience and love not for pushing your own needs on to someone else.

Venus Quincunx Mars

From 13 Mar 26 17:06

Love and money may be somewhat frustrating during this period. You may desire to move forward and experience some romance, or spend some of your income, but the moment is not quite right. You would be better showing patience with loved ones and being restrained in your spending habits. If someone is demanding that you loosen the pursestrings then rather than saying an outright "no" try soothing the situation with a financial plan.

Mars in the 3rd House

Jupiter in the 4th House

From 14 Feb 26

Jupiter is the planet known for generosity, expansiveness and joie de vivre. Ancient astrologers considered it to have a positive influence heralding abundance and expansiveness. Therefore you can expect these traits to influence the area of your Birth Chart currently under its influence. Your home and family is likely to flourish when this advantageous planet moves through the 4th House of your Birth Chart. Comfort in your home and family is a key feature of this period. You may feel like expanding your home, moving to a new and larger home, renovating, or

simply moving to home surrounded by large, open spaces. You enjoy the company of family members, and may welcome new members of the family through the birth of a baby or family marriages. This is a comfortable time during which you can sit back and take a more philosophical approach to life.

Jupiter Square Mercury

From 14 Feb 26

Exact 27 Feb 26 01:21

You are mentally pushing the limits for some reason right now. This can be a positive time during which you are keen to learn and travel, but you need to be wary that you are not too grandiose in your plans. Overconfidence can be just as damaging as a lack of self-esteem. You to think before you speak and seek wise counsel before making irreversible decisions. Your opinions are valid but there is a time and a place for expressing them.

Jupiter Quincunx Saturn

From 14 Feb 26

Exact 17 Feb 26 17:10

During this time you are forced to let go of obstacles which stand between you and your life goals. They can be your own inner obstacles such as fear or inflexibility, or it can be friends, possessions or loved ones who refuse to come to your assistance. This can be a painful experience at the time, but later you will feel the exhilaration that comes with a lighter load.

Saturn Quincunx Mars

From 14 Feb 26 To 15 Feb 26 01:58

Discipline and endurance are required now. You need to resist any urges that you have to control situations or other people. This is an ideal time to know your priorities, pursue realistic goals and let go of anything that has outlived its use by date. Accomplish what you can. Any delays are likely to be fortuitous although you may now realise so now.

Uranus in the 12th House

From 14 Feb 26

Uranus is a planet that is full of surprises. It takes approximately 84 years to do a full circle around the Zodiac. This means that it moves slowly through each Zodiac Sign and its effects on your Birth Chart takes time to unfold. It is important to note that this erratic planet can affect your life in a variety of ways depending on how you cope with change. If you try to resist change then you may find this planet's effects somewhat of a challenge. If you welcome liberation then you are in for a joyride. The planet Uranus helps you break free from past chains and restrictions and

form new and more joyful ways of interacting in your life. Your life may be disrupted but you are then free from thinking inside the box, and new horizons open up. The area of your Birth Chart influenced by this liberating force is likely to be awakened and stimulated. This is a profound period in your life, although at times you may feel the need to retreat. On the positive side you experience intuitive flashes, initiate or join an unusual institution and expand your philanthropic interests. It is also possible that you probe the human psyche in an unusual fashion.

Neptune in the 6th House

From 14 Feb 26

The planet Neptune takes approximately 164 years to circle the Zodiac. This slow-moving planet's transits unfold slowly. It is therefore more significant to look at any exact transits that are occurring in your Birth Chart. Nevertheless it can be helpful to try to understand the effect of Neptune as it enters into and transits through a House in your Birth Chart. Neptune is the planet that urges us to search for meaning in our lives, to look beyond the structures and focus on purpose. For instance are you pursuing a career because of ambition and material rewards or is it your true purpose and fully satisfying? Therefore it is not uncommon for the initial effects of Neptune to be confusion and disillusion, perhaps even a sense of loss. Gradually awareness emerges and you are able to see what is underlying the illusions and what you can gain by changing your course and embracing values that truly enhance your journey in life. Neptune helps you see the truth of any situation and therefore live your own truth. As Neptune travels through your 6th House you need to take care of your health, taking particular care with drugs of any description. The trouble is that your body is overly-sensitive during this time. You may even develop or discover allergies. You may also feel somewhat lethargic, overwhelmed by the demands of a busy life. A good balance of rest, exercise and a healthy diet goes a long way towards helping you cope with the stress of a busy schedule. You may also benefit from seeking advice from alternative healers, or perhaps even exploring options for working as a healer or in a spiritual field.

Pluto in the 5th House

From 14 Feb 26

Pluto is the slowest moving planet in the Solar System, taking approximately 248 years to complete a circle around the Zodiac. This slow-moving planet's transits are long-lasting and initially pack a punch if you are not living according to your true natures. The more you are your authentic self, the more that you can embrace the positive side of Pluto. The author of the website Caf? Astrology puts it best when stating: "Pluto compels us to explore more deeply. Superficiality is not acceptable for Pluto. Pluto transits insist that we get in touch with our core purpose and our deep sense of power. New levels of intimacy, not only with others but also with ourselves, are discovered and uncovered." Currently you have a powerful need to express yourself creatively, and your energy would be best directed through a demanding and absorbing creative project. Children, either your own or other people's, may present a challenge. It is possible that you are seriously considering whether or not to have your own children.
